

# **GLOBAL LEADER IN AIR BEARING TECHNOLOGY**

## **Metrology Systems**

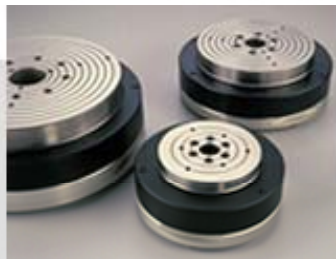

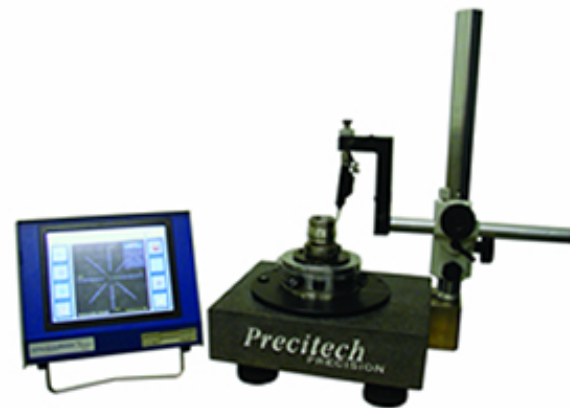

### The **FMS 8150 Form Measurement System**

A full line of circular form measurement systems utilizing ultra precision air bearing technology and state of the art software.

Custom designed specialty measurement systems

#### **FMS 8150 Process Capability**

Axis symmetric parts from 0 to 100 in. diameter and 0 to 70,000 lbs.  
Roundness - Flatness - Squareness - Concentricity - Cylindricity (8150C)

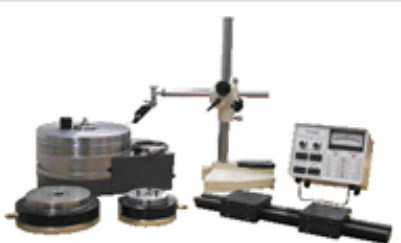

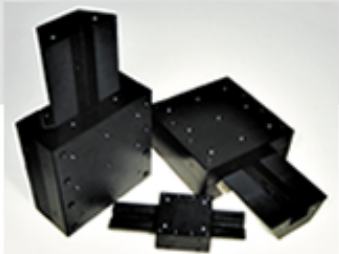

## **OEM Components**

Ultra precision **Linear** and **Rotary**  
**Air** or **Oil** hydrostatic stages for your  
most demanding applications

Continuing to provide cost effective OEM solutions.

#### **Original Equipment Integration Capability**

Multi Discipline Engineering Group, Ultra-Precision Machining  
and Assembly, World Leader in Service and Support
