

Global Leaders in Ultra Precision Technology

Nanoform® 700 ultra
Diamond Turning Lathe with Micro Milling

We invite you to discover how these multi-axes Ultra Precision Machines designed for the production of optical lenses, optical mold inserts, mirrors and precision mechanical components have remained the most productive, versatile and accurate machines in the industry.

Nanoform® 250 ultra
Diamond Turning Lathe with Freeform Capabilities

(All Nanoform® 250 ultra machines now achieve surface finish under 1.0nm Ra)

Nanoform® 250 ultragrind
Diamond Turning & Micro Grinding

Precitech is your complete source for Ultra Precision systems providing total machining solutions, utilizing our unprecedented 0.01 nanometer programming resolution and 16 picometer feedback resolution.
